UNPACKING Y/OUR SUSTAINABILITY POTENTIAL

Sashi expresses one of the most heartfelt themes of our company, Design Consciousness, the packaging development in total respect for the environment.

Reuse: Sashi is the perfect packaging solution to refill personal and home care products, so that you can reuse your packaging and reduce the waste.

Recycle: Sashi are mono-material packaging in PE, so they are completely recyclable.

Reduce: with Sashi you can also reduce overall storage volume and transportation costs, as they are extremely lightweight and compact and you can pack many Sashi in a box without adding extra weight.

SASHI REFILL SOLUTIONS
