foamy   FUTURE OF FOAMER

APPLICATION
Ideal for foaming beauty products:
· Moisturizer · Gel Cream · Tonic · Body Lotion
· Hair Treatment · Makeup Remover · Kids Care
· Self-tanning Cream · Specific Treatment · Hand Wash

FEATURES
· The first foamer in glass, a fully recyclable material
· Distinctive foam actuator design
· Important size impression
· Many decorations available on glass bottle

UNPACKING Y/OUR SUSTAINABILITY POTENTIAL

Foamy collection has several sustainable features: foamer formulations need less water to be ready to use.

CIRCULARITY
· bioplastic
· recycled content
· separable components
REUSE
reusable & refillable

Bioplastic: BIOBASED HDPE is a plastic obtained from renewable sources.

Recycled content: PCR-HDPE is a plastic obtainedfrom the packaging that has been used by consumers, properly disposed of, recycled into a new product and put back on the market! Our PCR-HDPE bottles are made of three layers: the inner and outer layers are in HDPE, while the middle one is in PCR-HDPE.

Separable components: the components of the foamer can be easily separated and differentiated by material.

Reusable & Refillable: Foamy can be refilled with Sashi flexible packaging in a few easy steps!

REUSE & REFILL CONCEPT

Choosing our Sashi flexible packaging in combination with Foamy 200, 150 and 100 ml, you will obtain a sustainable beauty set ideal for skincare formulas.

25 REFILLS
The foam actuator ensures the packaging to be refilled up to 25 times.
