Plastic decoration

Screen printing, pad printing, hot stamping.

UNPACKING Y/OUR SUSTAINABILITY POTENTIAL

Heavy packaging collection is the perfect solution if you need packaging with sustainable features. Heavy 200, 250 and 400 ml plastic bottles are also available in sustainable materials:

CIRCULARITY
• bioplastic
• recycled content

Bioplastic: **BIOBASED HDPE** is a plastic obtained from renewable sources.

Recycled content: **PCR-HDP** is a plastic obtained from the packaging that has been used by consumers, properly disposed of, recycled into a new product and put back on the market! Our PCR-HDPE bottles are made of three layers: the inner and outer layers are in HDPE, while the middle one is in PCR-HDPE.
